

Did your children give you a computer
that just sits on the desk and
holds the papers down?

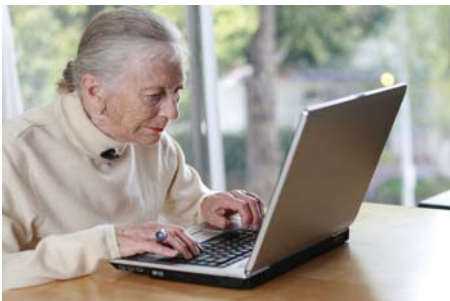

Want to know how to
turn the thing on

and become computer functional?

Well, come on down
to the Florence Douglas Senior Center
and sign up for a course in Computer Basics.

**A 10 week Class starts July 6
and for 2 hours a week (10:00am to 12:00pm)
you too can be on the road to becoming
a computer geek!**
