

So, you got a computer
and you know how to turn it on
and get your e-mail..

However, when you downloaded a file,
you haven't a clue where it went to.

You want to send somebody an attachment,
but you don't know how to attach it.

To find the answers to these
and other nagging problems,
come on down to
the Florence Douglas Senior Center
and sign up for a Beyond Basics Class.

**A 10 week Class starts July 8
and for 2 hours a week (10:00am to 12:00pm)
you too can be on the road to becoming
a computer whiz!**

June 7, 2010
